RE: Woody Debris from Municipalities

Dear James Osterloh,

The Brown County South Landfill opened on January 3, 2022 after two (2) years of construction. Operations are going well. We have new staff, newly acquired equipment and are collectively working through operational challenges. At the new facility, we have some new rates we want to share with our community partners.

Landfills need daily cover and beneficial use materials for interior road construction and other uses. The best practices of running a landfill are to utilize desired waste streams to meet those needs rather than purchasing virgin materials. Knowing this, Brown County wanted you to be aware that we have established a \$5/ton tipping fees for old concrete and woody debris (not grass clipping or leaves) delivered to the South Landfill, 1258 Mill Rd (County Trunk IL) Greenleaf, WI 54126. Please share with others and if you'd like to discuss further please reach out to us.

For additional information on hours, location, and acceptable materials please see our South Landfill webpage at <https://www.browncountyrecycling.org/south-landfill>.

Sincerely,

A handwritten signature in black ink, appearing to read "Dean Haen".
